

Brownfields 2016 Cleanup Grant Fact Sheet

Earth Conservancy, Hanover Township and Nanticoke, PA

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Cleanup Grant

\$200,000 for hazardous substances

EPA has selected the Earth Conservancy for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the Espy Run on Espy Street in Hanover Township and the City of Nanticoke. The 2.4-mile-long stream runs through an area that has been used for anthracite mining. The stream has been impacted by historic mining activity and acid mine drainage. Grant funds also will be used for community outreach and engagement activities.
